Nebula Appliance Matrix

The appliance matrix lists sustained throughput and rack footprint per model.

Model	Sustained QPS	Rack Units
NEBULA-100	1200	1U
NEBULA-200	3000	2U
NEBULA-300	6000	2U
NEBULA-400	9000	4U
NEBULA-500	18000	8U

Values are measured with a 512-token prompt and a warm model cache. A model row is only offered in regions where the required accelerators are stocked.
